## Good reason to celebrate

Christmas celebrations were enjoyed with gusto at the annual Kwinana Industries Council end-of-year function, with community and industry representatives meeting together for food, wine and networking under the setting sun.

The talents of caricaturist Jason Chatfield and illusionist Adam Murby were on display, with many taking time to have their "likenesses" drawn and their senses tested.

The evening was also a celebration of milestones and achievements for industry, as well as a sobering look at the gas crisis and ongoing economic freefall.
